## Country Meadows Senior Men's Golf Club

### Entering Scores into our Handicap System

As you know, we have postponed the start of our season due to the pandemic. Many of you may want to start golfing before our club officially restarts, so we have now enabled our handicap system to allow you to enter your own scores into the handicap system in our website.

#### The instructions are as follows.

1. Open your computer to, <https://countrymeadowsseniormensgolf.com/>
2. Go to '**Handicap**'. Read **Instructions** if needed, then go to **Enter Score**
3. To enter score, type **cmsmgc** into ID box, then click on **go**.
4. Type your membership number into the Search Box. (this will open your personal handicap page)
5. Scroll to the bottom of your handicap page and you will see the score entering section.
6. Password 12345 (shown as 5 dots in the box) has been installed already, please do not change it.
7. Click on the **holebyhole** box and the scorecard will appear.
8. Enter the score for each hole that you played.
9. After filling in the scores for each hole, the **total** score will be shown.
10. Please be sure that the **total** matches your own scorecard.
11. If the **total** is incorrect you can correct the score in any hole by placing the curser behind the score you entered, then backspace, and then enter the correct score.
12. When your scorecard is finished click on the **Submit** box
13. Your score will now be shown on the first line of your handicap page,
14. This handicap system is only applicable for games played at the "**Country Meadows Golf Course**"
