

Country Meadows Senior Men's Golf Club

Country Meadows Senior Men's Golf Club is a group of about 170 men who play golf at Country Meadows Golf Course on Wednesday mornings from March to October. The club was formed in 1995 soon after the Golf Course opened. Although we have a number of tournaments throughout the year our object is not competition but fellowship through golf.

Soon after starting, the club members decided that one of our activities would be in support of a Charity. In the fall of 1999 one of our members, Harold Mahood recommended a friend, Dr. Marianne Sadar, the Program Leader for Prostate Cancer Research at the BC Cancer Agency who was in need of funds to purchase much needed equipment for her research. Our Club and the Cancer Agency negotiated that 100% of every dollar raised would go directly to her department. It all made sense, what better way could a club of senior men spend their energies, time and money than to support Prostate Cancer Research. And so Prostate Cancer Research has been our charity of choice since the year 2000 to the present day, with our motto "WE SUPPORT PROSTATE CANCER RESEARCH THROUGH OUR CHARITY GOLF CLASSIC". We hold a Charity Golf Tournament in early September of each year.

On this Website you will find an application form for those wishing to apply to join the club as well as more information about our Charity support and a place to donate to the Charity.
